OUTSTANDING ACHIEVEMENT AWARD

to

**KEMAL WEISDORFER**

Who is recognized for providing outstanding customer service and support to the Pest Detection Program. Kemal completed numerous tasks and projects with a high degree of attention and accuracy. Such tasks included the tedious process of verifying the accuracy of documents, a substantial amount data entry, filing, and many other projects as assigned. Kemal took the initiative to create, formulate, and complete a very complex electronic version of the Daily Trap Status document that is now used on a daily basis by our employees. This has streamlined the submission of these daily documents resulting in increased program efficiency.

Congratulations and best wishes for your continued success!!

Ryan Wann  
Program Coordinator  
Pest Detection Program
